

FEATURES

- Plain washer
- Outer diameter of 37 mm
- Inner diameter of 13 mm
- Thickness of 3 mm
- For use with M12 screws and bolts
- A2 304 stainless steel construction for durability and corrosion resistance
- Conform to Electrostatic Control Standards ANSI/ESD S20.20:2014 and BS EN 61340-5-1:2007
- Complies with RoHS (restriction of hazardous substances) standards

Stainless Steel Plain Washer, 3mm Thickness, M12, A2 304

RS Stock No.: 797-6263

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

These stainless steel washers from RS PRO can be used in all types of fastener assembly, where they extend joint lifetime by reducing wear and tear caused by friction. By insulating steel fasteners away from aluminium surfaces, washers can significantly help to prevent galvanic corrosion. Washers are commonly used in a wide range of settings including chemical, food and electronic applications, where they contribute towards an even load distribution and reduce pressure. Not only do they stop mating surfaces from becoming distorted over time, they also allow for smoother loosening and tightening of components, which makes maintenance easier.

General Specifications

For Screw/Bolt Size	M12
Material	Stainless Steel
Finish	Plain

Mechanical Specifications

Inside Diameter	13mm
Outside Diameter	37mm
Stainless Steel Type	A2 304
Thickness	3mm
Specification	DIN 9021

Approvals

Compliance/Certifications	RoHS
