RS Pro Bright Zinc Plated Steel Pan Self-Drilling Screw, No. 8 x 5/8in

RS Stock No: **546-5963**

Product Details

RS Pro self-drilling screw measuring No. 8 x 5/8 in, is made of steel with bright zinc plated and clear passivated finish. This pan head screw offers all the advantages associated with standard self-tapping screws but it is capable of drilling their own pilot holes into sheet metal up to 5 mm thickness. The self-drilling screw should be installed using a power-driver and therefore it is particularly suited to fast production environments. This screw can be used in light and heavy gauge sheet metals, soft plastics etc and is ideal for applications in heating and air conditioning, metal and fibreglass fabrication industries. The screw meets DIN7504 standards.

Features and Benefits

- Meets DIN7504 standards
- Used in light and heavy gauge sheet metals, soft plastics etc
- Ideal for applications in heating and air conditioning, metal and fibreglass fabrication industries.
- Feature pan head and pozidriv type drive

Specifications:

Drive Type	Pozidriv
Finish	Bright Zinc Plated, Passivated
Head Shape	Pan
Material	Steel
Length Metric	16 mm
Length Imperial	5/8 in
Thread Size (UTS)	#8
Specification	DIN 7504-N
