RS Stock No.: 446-863

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO, this robust screw extractor set is ideal for removing broken screws and threaded bolts without damaging the thread. With a hardened chrome vanadium steel construction, the spiral fluted extractors are suitable for turning and retrieving many types of fasteners and studs of medium tensile strength. This kit even contains corresponding drill bit sizes, for a complete solution.
