Kaiterra app for monitoring

Kaiterra dashboard for monitoring

# Sensedge Mini SE-200

Product of Switzerland

### DESCRIPTION

- A mini size gadget that monitors air quality accurately
- Records real-time and historical data
- Identify pollution sources in the environment
- Applicable in offices and for industrial usage to optimize indoor air

### PRODUCT FEATURES

- Interchangeable modules
- Wifi/Ethernet 802.3/Modbus RS-485
- Memory data storage up to 1 hour
- Power: using USB Type-C or direct wiring
- Small & unobtrusive design
- Quick response time

### WHY CHOOSE SENSEDGE SE-200?

- Once the sensor modules reach their lifespan, they can be replaced without the need to dispose of the whole gadget
- This gadget is small in size which allows you to mount it in hidden places and monitor the air discreetly
- Monitor as you go. Even if you are not anywhere near the gadget to monitor it, you can always do so on the app or dashboard
