Datasheet

Screwdriver

1/4" Hexagon Magnetic Bit Driver

Material

Bit driver: Zinc alloy magnetic shaft
Handle: Extruded Acetate

Finish

Bit driver: Chrome plated
Handle: Red colour Acetate

Content

1pc 1/4" Hexagon magnetic bit driver
Handle with red colour acetate

Features

1. Professional nut driver, used to drive Hexagon headed nuts, bolts and sheet metal screws.
2. Ideal for driving self-drilling screws for fixing roofing sheet and cladding.
3. Produced from hard-wearing, high grade alloy steel, fully hardened and tempered for durability and long life.
4. Strong, permanent magnetic pad inside the socket holder retains screw/fixing firmly in place for easy working
