

FEATURES

- Low Breakages
- Titanium Coating
- Cuts Faster And Lasts Longer
- Ideal For Use With Most Power Drills
- Supplied In A Moulded Abs Storage Case

RS PRO 25 piece Metal Twist Drill Bit Set, 1mm to 13mm

RS Stock No.: 467-9060

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers this exceptional Drill bit set made from HSS (high speed steel) and coated in titanium for high-performance, offering more resistance than regular HSS bits. The set contains a great selection of the most commonly used diameters from 1mm to 13mm in 0.5mm increments. These HSS drill bits with titanium coating are constructed from a single piece of high-speed steel, thus reducing them breaking and blunting under heat or stress. The coating gives the bits a very high surface hardness to help penetrate tough materials. The drill bits are also manufactured in accordance with DIN 338 for high precision tolerances and geometric accuracies and supplied in a durable storage case.

General Specifications

Set Type	Jobber Drill Set
Minimum Size	1mm
Maximum Size	13mm
Drilling Application	Metal
Material	HSS
Number of Pieces	25
Set Contents	HSS Drill Bits
