# RS Pro Anti-Vibration Pedestal Mount

## Product Details -

The KPN Pedestal mount is designed for use on alternators and static generators. Comes in natural rubber as standard but is also available in neoprene for applications where the mount is subjected to fuel contamination.

### Applications:

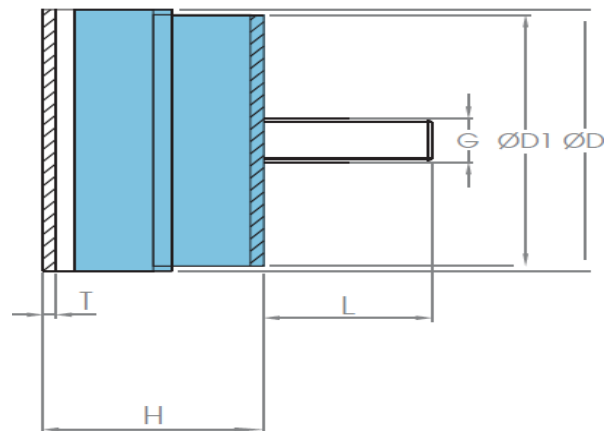

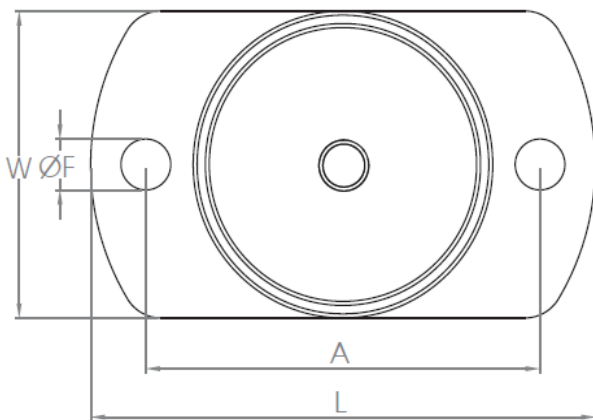

- Static generators
- Pumps
- Compressors
- Heavy machinery
- Engine mounts for off road vehicles
- Packaging isolators for equipment transportation

### Features:

- Available with male stud or female thread fixing hole
- Very simple mount with two flange hole fixings
- Low cost

## Line Drawing -

## Range Table:

RS Stock number	Description	Dimensions (mm)
