RS PRO METAL CONTENT TIE RELEASE BLUE

Stock number: 172-1769

EN

Material : NYLON 66 with metal powder, flammability 94-HB

Features and Benefits

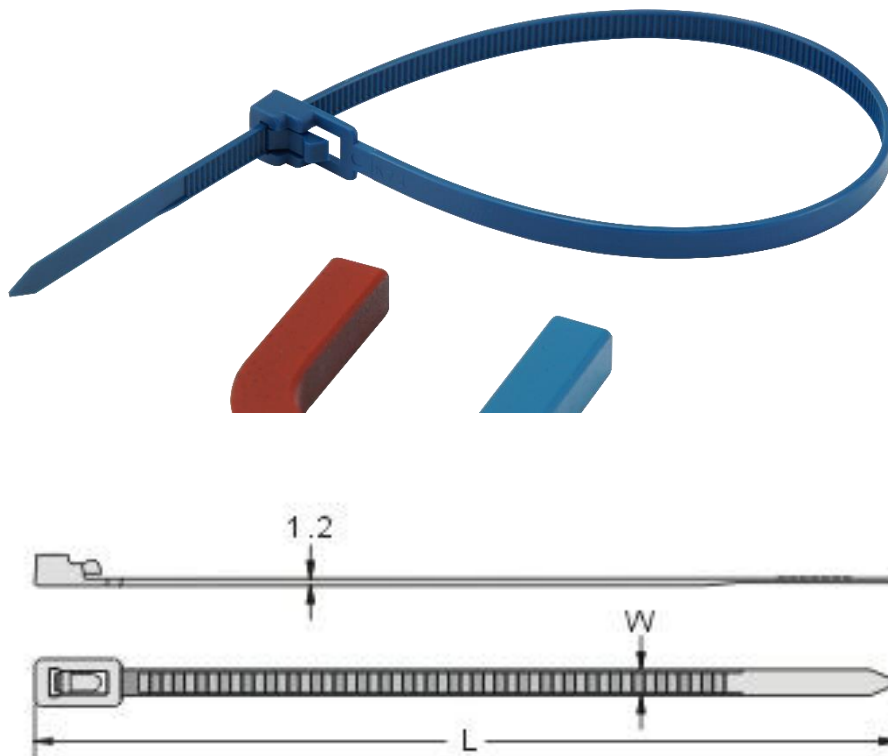

- Blue in colour to assist in detection
- Feature: Apply for Food and Medical industrial, FDA standard, can be detected by Metal sensor.
- Metal content ties have good corrosion resistance
- Magnetic and X-Ray detectable (detection level depending on specific application)
- Easily assembled by hand or with pliers, remain securely locked until intentionally released by operating the finger catch.

Cable Ties for food industry, detectable

Metal Content Tie is a cable tie specifically designed for use in the food and pharmaceutical processing industries.

During the manufacturing process, a metallic pigment is included which enables the ties to be detected more readily than standard ties

Metal content cable ties are ideal for fastening cables and hoses in processing and packaging areas to prevent contamination.
