RS Stock No: 254-5770

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

OLIVE CUTTER PLIER TYPE TOOL 10 MM

FAST, RELIABLE, DAMAGE FREE. A MUST-HAVE PLIER FOR EVERY PLUMBER.

Remove a compression olive, ring or ferrule fast, without damaging the copper pipe. A reliable cut every time, with minimal hand pressure. Say goodbye to pipes deformed by hacksaws or olive pullers.

Benefits

- No more costly damage to pipes.
- High-leverage design for easy operation and minimal exertion.
- No swarf produced.
- More reliable and accurate than a hacksaw or olive puller.
- Made to last, with a robust construction and rust-proof finish.

Applications

Designed to cut compression fittings from copper water pipes. Ideal for:

- Professional plumbers, especially when moving radiators.
- Serious DIY-ers tackling similar jobs.
