

## Features

- Mini Displayport
- Front or rear mounting through the panel
- Standard Ø24mm cutout hole
- Low rear profile
- No soldering or punch termination. Use standard cable for each connector style

## RS PRO Mini Displayport feedthrough

RS Stock No.: 189-3951, 189-3954

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

### Product Description

The FT series of true, feed through, data connectors for electrical instrumentation are perfect for developing custom I/O configurations for wall plates, rack panels, etc.

All fit within a standard XLR panel cutout and use common cabling for front and back connections. No soldering and no punch terminations - just use the standard cable for that particular connector style. Mount from the front or back. A low rear profile accommodates the tightest behind-the-panel spaces.

Functionality is affected by cable quality, length and cable wiring configuration.

### General Specifications

|                |                  |
|----------------|------------------|
| Connector      | Mini Displayport |
| Connector type | Feedthrough      |
| Gender         | Female to Female |
| Mounting       | Panel Mounting   |
| Hole type      | M3               |

### Mechanical Specifications

|                 |                                      |
|-----------------|--------------------------------------|
| Frame Material  | Zinc diecast, Nickel or black plated |
| Insert Material | ABS UL94 HB                          |
| Shell           | Nickel plated                        |
| Contacts        | Gold plated                          |
