RS Pro 400W Panel Heater, Ceiling Mounted, Wall Mounted

RS Stock No: **875-0270**

Product Details

RS Pro 400 W infrared panel heater converts 100% of the energy consumed into comfortable warmth, heating quickly and accurately without any plumbing, ongoing servicing or maintenance costs. It measures 300 x 1200 mm and can be wall or ceiling mounted. The far infrared penetrates the air and heats people, objects and the fabric of the building much like sunlight or an open fire. Radiatively heated objects retain heat longer and re-radiate their warmth back into the room creating better all-round thermal comfort. IR heating also prevents the unpleasant dry breeze and dust disturbance of convection heating. It evolves less humidity and therefore a lower risk of mould formation and mildew.

Features and Benefits

- Available in a selection of sizes and heat outputs
- Wall or floor mountable
- Silent operation
- Heating element: carbon-nickel with nano silver and nano copper technology
- Front face: white powder coated metallic surface
- Rear face: aluminium sheet with profiles for mounting
- Cable: 3 m power cable (European plug type CEE 7/4 fitted)
- Five integrated temperature sensors provide safety from overheating
- Frame: white powder coated aluminium frame
- Voltage rating of 230 V, 50 Hz

ENGLISH

Specifications:

Depth	22 mm
Dimensions	1200 x 300 x 22 mm
Frequency	50 Hz
Heat Type	Infrared Reflector
Height	1200 mm
Maximum Output Power	400 W
Mounting	Ceiling Mounted, Wall Mounted
Noise Level	Silent
Plug Type	Type C - Euro Plug
Width	300 mm
Voltage Rating	230 V
