RS PRO Imperial Nitrile 90 ShA O-Rings

Nitrile / NBR / Buna-N

Nitrile (NBR) is the most cost effective and commonly available O-ring material. It is suitable for use in general engineering applications owing to its resistance to many greases and oils. This O-ring material boasts a hardness rating of 90 ShA which is beneficial in applications in which sealing pressure is high. In applications requiring resistance to temperatures of more than 90°C it is advisable to consider purchasing RS Components FKM O-rings instead.

*Colour: Black**Operating temperature range: -30°C to 90°C*
