

Datasheet

8 inch Gripping Driver Screwdriver, Slotted 0.037 in Tip

RS Stock number [547981](#)

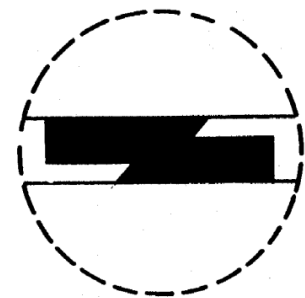

Description

- Split-bladed screwdrivers for gripping slotted head screws during location and extraction
- Blades have a sliding sleeve operated by a plastic collar (just below the handle) which, when pushed down, causes the blade tip to split apart and firmly wedge against the sides of the screw slot
- The blade is released by pulling back the sleeve
- Blade thickness is defined in the released condition

Specification

- Blade Length: 8 in
- Handle Material: Plastic
- Screwdriver Type: Gripping Driver
- Tip Size: 0.037in
- Tip Type: Slotted
