## LED Emergency Lighting Twin Spot 2 x 3.5 W

RS Stock No.: 179-8133

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This emergency 2x3.5W LED twin spot light from our trusted and highly reliable own brand RS PRO is an essential device for providing a light source to highlight exit routes in case of an emergency, commonly found in working environments such as warehouses, hospitals and more. This highly durable LED emergency light features two powerful LED bulbs, providing an excellent light source in a variety of emergency situations. The RS PRO LED twin spot is a non-maintained LED device, ensuring that if there is a power cut the LED bulbs will still illuminate via a backup power source.
