Technical Data Sheet

RS Pro Foamtip Swabs

Stock number: 177-1330

RS 1771-1330 are constructed from medical grade foam, which features excellent open cell structure, providing excellent particle entrapment characteristics. The foam is thermally bonded to the swab handle without using adhesives. These swabs are ideal for general cleaning applications.

Specifications:

- Head Material: Foam
- Head width: 6.3 mm
- Head Length: 19 mm
- Handle Material: Polypropylene
- Handle Width: 3.3 mm

Features:

- Traps surface particles while cleaning
- High solvent capacity
- Fibreless construction does not generate loose fibres or particles
- Economical for high quantity applications

Packaging

50 swabs per bag

RS Order Code

117-1330
