

Product Specification for Virtue Green QB NF1813 Chemical Resistant Nitrile Glove

Virtue Green Chemical Resistant Flocklined Nitrile gloves are made of Acrylonitrile Butadiene compound, which provide durability, comfort & chemical resistant offering versatile hand protection.

Product Description:

Material: Nitrile Rubber
Lining: Cotton Flocklined
Finger & Palm Pattern: Diamond Patterned
Sizes available: M, L & XL
Packing: Individually Packed
Colours available: Green
Cuff: Straight
Thickness of gloves: 18 Mil (About 0.45mm)
Length of gloves: 13 Inch (About 330mm)

Protect against mechanical risks

Protect against dangerous chemical

Protect against bacteria, fungi and viruses

UKCA 0120

UKCA Type: Examination Certificate Module B

CE 0598

EU Type: Examination Certificate Module B

International Standard for Quality Management System

EU Regulation restricting chemical in EU products to protect health & environment

Product Feature:

- Made from specially formulated Acrylonitrile Butadiene compound that provides outstanding protection against a wide range of chemicals including strong detergents, greases, oils, most solvents and acids.
- Recessed diamond pattern design to offer enhanced grip and slip resistance, improving safety and efficiency in various tasks and industries.
- Test and certificated to the European Standard, guaranteeing their quality, performance, and compliance, which builds trust and confidence with customers.
- No latex protein, suitable for latex allergies users or with sensitive hands.
- Highly durable & long lasting, ensured extended usage, providing reliable and prolonged hand protection without frequent replacement
- High chemical and oil resistance, safeguarding against a wide range of substances and promoting safety and productivity.
