

FEATURES

- External open-ended circlips
- For use with 20mm shafts
- Fits to 19mm groove diameter
- Ring thickness of 1.2mm
- Outside ring diameter of 28.4mm
- Tough and durable stainless steel construction

Stainless Steel External Circlip, 20mm Shaft Diameter, 19mm Groove Diameter

RS Stock No.: 209-6693

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

External clips are used as substitutes to threaded sleeves, rivets and cotter pins to set collars and nuts. Instead of using bulky fasteners, these circlips can be used to sit flush around shaft or bore components. These particular clips from the RS PRO series are compatible with 20 mm shafts and 19 mm groove diameters.

Two circlip kits are available

Kit 1 (RS 278-360) contains small sized clips and Kit 2 (RS 278-376) contains large sized clips in both cases.

General Specifications

Circlip	External
Material	Stainless Steel
Applications	Electric Motors Turbines, Pistons, Vehicle construction, Brake adjustment, Optical devices, Sprocket chains, Electronics, Roller/Wheel bearings, Gearing/Transmission, Clutches

Mechanical Specifications

For Shaft Diameter	20mm
Fits Groove Diameter	19mm
Ring Thickness	1.2mm
Ring Outside Diameter	28.4mm

Approvals

Compliance/Certifications	Stainless Steel 420 type
