RS Pro Diamond TiN CVD Slotted Screw Bits (Box of 5)

RS Stock No: 125-0367
125-0368
125-0369

RS Pro Diamond TiN CVD bits are top quality screw bits with very high performance capabilities. The diamond coating allows the bit to 'bite' into the screw head and therefore reduces the risk of slippage (reduces the cam-out effect). These bits are fully TiN CVD coated using a high temperature method giving a coating hardness of approx. 95 HRc.

Due to the high performance properties of the coating, these bits allow perfect wear protection, can have higher torques applied to them and ultimately give a longer service life. These bits also feature a longer torsion zone.

Specifications:

- 1/4" Hexagon Shank
- 25mm long
- Longer torsion zone
- TiN CVD coating
- Diamond coating

Kit Contents:

- 5 x Diamond TiN CVD Slotted Screw Bits
- Supplied in a compact plastic box.
