## RS PRO Chrome Nickel Steel Pliers Plier Set, 175 mm Overall Length

RS Stock No.: 668-5884

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

### Product Description

This three-piece plier set from the RS PRO range features three of our most popular pairs of pliers. Whether you're a DIY enthusiast or a professional electrician, the pliers in this set will let you grip, cut or strip wires with ease. The set includes combination pliers, long-nose pliers and diagonal cutters. The 180 mm combination pliers are ideal for cutting and bending wire, and for general gripping tasks. The 200 mm long-nose pliers are also used for cutting and bending wire, but their design makes them ideal for accessing hard-to-reach areas. The 160 mm diagonal cutters are used to obtain a clean cut through wires.
