

Description

Our durable and easily maintained ESD brushes have plastic bristles that are either conductive or static dissipative. Used within a static controlled area, the brushes are designed to dust PCBs and other static sensitive items that require particles removed safely.

The specially developed brushed are ideal for cleaning delicate components, integrated circuits and workstation surfaces.

Applications

- Cleaning computer motherboards
- Brushing down workstations and antistatic mats
- Cleaning delicate electronic components that require ESD protection

Features

- Both conductive nylon and dissipative plastic bristle options
- Ergonomic handles for comfort during prolonged use
- Safely dissipate static charges without damaging electronic components
- Important tool for any static controlled workstation
- Firm bristles, ideal for working with electronic devices

Part Number Table

Description	Bristle Area	Brush Length	Part Number
ESD Brush	16mm×3mm×12mm	131mm	MP005910
ESD Brush Toothbrush Style, Small	34mm×10mm×16mm	340mm	MP005911
ESD Brush EB-WA Style	22mm×10mm×12mm	142mm	MP005912
ESD Brush Toothbrush Style, Large	131mm×32mm	225mm	MP005913
