

# KRAFT PAPER TAPE

## 1. Product description

H270 is a quick, sure sealing, economical, pressure- sensitive flatback tape which can increase packaging line efficiency. It is versatile and offers a positive attractive seal which matches most corrugated cardboard.

## 2. Main Application

Used for packaging (e.g. sealing of corrugated fiberboard boxes, packing of home delivery goods and parcels). Do not apply the tape directly on furniture, walls, glass, car bodies, etc.

## 3. Technical Specification

Properties	Unit	Specification	Test methods
Adhesive		Hot Melt	
Backing	g/m2	70	
Total Thickness	mm	0.13	GB/T7125
Peel Adhesion 90°	N / 25mm	23	GB/T2792
Holding Power	h	>24 h	GB/T7753
Elongation at break	%	1.5-3	GB/T7753
Max temp. Resistance	°C	60	DHG-9055A

## 4. Storage Condition

It's recommended to store in clean and dry place. Damaged packaging shall be prevented. Not stored with volatile solvent. The temperature of storage shall be 4°C to 26°C and the humidity shall be between 40% and 50%. Rotate inventory recommended.
