RS PRO D-sub Adapter Female VGA to Female VGA

RS Stock No.: 408-1924

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO, this mini VGA to VGA adaptor is designed to facilitate a connection between two female Video Graphics Array connectors. VGA connectors are often used in computer monitor connections, and so can be used to join two cables together. This 15 pin mini VGA socket to socket adaptor is extra-flat for space-saving applications. With durable and quality construction, this adapter assures excellent connection from either cable to device or cable to cable. Like many VGA connectors, it features integrated thumb screws for a stable and secure connection to VGA plugs
