Product Description

Introducing the range of RS PRO Reversible Lock Nuts, a high-quality fastener locking solution for connecting and tightening a bolt or screw in a wide range of applications to prevent it from loosening and locking it into place, while still having the option to remove or loosen it when required. Each fastener is made from steel with a zinc coating, making them much more cost-effective than their stainless-steel counterparts, while still offering a high level of protection against surface rust and oxidation.

Applications:

- Household and DIY applications
- Building and construction
- Automotive, marine and aerospace
