Cylindrical Polyurethane Rubber Feet

Polyurethane rubber feet are self-adhesive bumpers made from 100% polyurethane which outperforms other materials like felt, foam, silicone or plastics. Our polyurethane does not contain any fillers, oils or plasticizers and thus these rubber feet will not stain, mar or scratch any surface. The high performance adhesive backing has a “quick peel” lining for effortless application.

Purpose built to help prevent against slamming, scuffing, vibration and noise. Suitable for use as:

Feet - On the bottom of small house hold appliances or small electronical devices

Stops - For cupboard or cabinet doors and drawers

Spacers - For when assembling other items or to keep gaps between items

Protectors - To help prevent against damage when in transport

Main features:

- 100% moulded polyurethane
- Superior abrasion resistance, vibration and shock dampening
- Easy “Peel-Off” application, non-staining, non-skidding, and non-marking
- Can be used on wide variety of substrates like plastics, laminates, finished wood, glass, metal, ceramics, painted surfaces, paper etc

Cylindrical Polyurethane Rubber Feet - These circular flat topped non-skid rubber feet provide stability for the application it is on while preventing movement when in use. These rubber bumper feet provide space and allow airflow underneath various applications.

H = Height
D = Diameter

RS Code	Part Number	Description	H (mm)	D (mm)	Colour	Pieces per sheet/Layout
