ECONILA S1 LOW

ECONILAS1L

Wide-fitting trainer like safety shoe with recycled upper material

More made from less. Thanks to its recycled upper, ECONILA protects both your feet and the environment. This metal-free safety shoe features a composite toe cap, a lightweight design and ESD protection. The rubber outsole grants exceptional slip resistance, while resisting oil, fuel, chemicals, and extreme temperatures. Extra wide fitting.

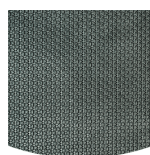

Upper	Knitted Recycled Textile
Lining	Recycled Mesh
Footbed	SJ foam footbed
Midsole	N/A
Outsole	Phylon/Rubber (NBR)
Toecap	Composite
Category	S1 / SR, ESD, FO, HRO
Size range	EU 35-48 / UK 3.0-13.0 / US 3.0-13.5 JPN 21.5-31.5 / KOR 230-315
Sample weight	0.403 kg
Norms	ASTM F2413:2018 EN ISO 20345:2022

KHA

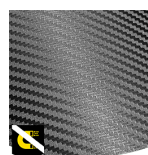

Rubber outsole

Rubber outsoles provide versatile functions that make them suitable for many areas of application: excellent cut resistance, heat and cold resistance, high flexibility at cold temperatures, resistance against oil, fuel and many chemicals.

Composite toecap

Metalfree and lightweight, no thermal or electrical conductivity

Metal free

Metal free safety shoes are in general lighter than regular safety shoes. They are also very beneficial for professionals who have to pass through metal detectors several times a day.

Slip resistance (SR)

Replaces the previously used term of SRA+SRB=SRC. SR means the slip test has been executed on tiles contaminated with soap and with oil.

Heel energy absorption

Heel energy absorption reduces the impact of jumps or running on the body of the wearer.
