

Datasheet

RS PRO USB 3.0 to VGA Adapter

Stock number: 195-4280

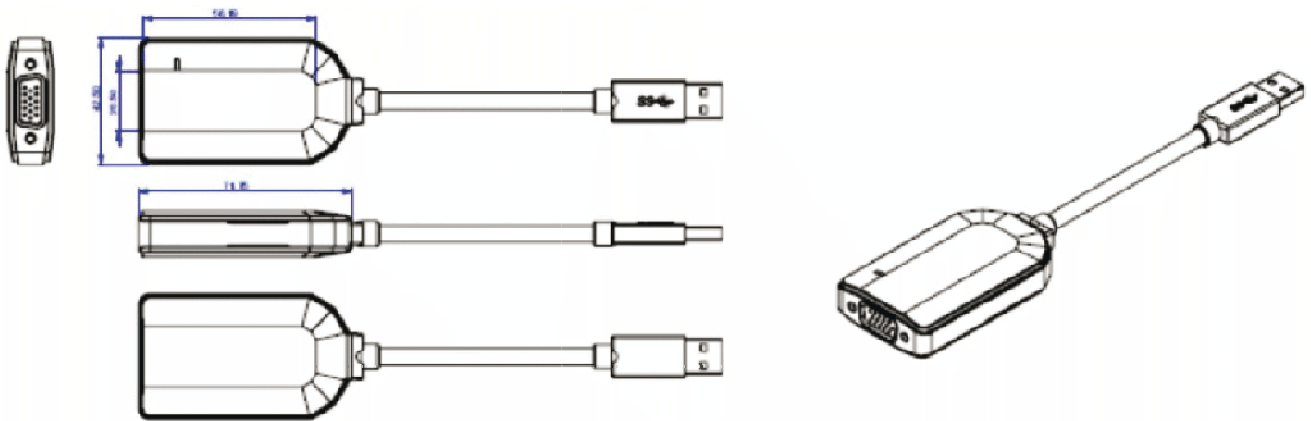

EN

The RS-PRO USB 3.0 male to VGA female adapter is designed to let you connect a VGA monitor to a computer that has a USB 3 output.

This adapter can be used with Mirror mode, Primary mode or Extend mode to extend you current Laptop or desktop monitor.

Our adapter can support resolutions up to 1600 x 1200 for standard monitors or 2048 x 1152 for widescreen SVGA monitors at 16bit or 32bit colour.

Our VGA adapter also supports display rotation of 0°, 90°, 180° and 270°.
