

Mounting using NEXT GEN heaters with Delta T,

22-01-2020

BLF 203 - BASIC - heats upto 150/200kg

New

BETEX BLF 203 low frequency induction heaters 230V - 50/60Hz - **BASIC series**

- Heating can be done in time or temperature mode
- Smart electronics ensure optimal heating and efficient use of power
- Robuste design for working in industrial environments
- Controlled heating method
- Reduced energy consumption
- Including 2 yokes 30, 70 mm
- Temperature setting upto 240°C / 464°F
- Incl. 1 magnetic temperature probe
- Automatic demagnetization, better than 2A/cm
- Keyboard for easy operation
- Acoustic signal at the end of each heating cycle
- Temperature hold
- Time setting in minutes/seconds
- Incl. service kit and CE-manual
- 3 years warranty on the electronic unit
- Including packing material

Technical specifications BLF 203

Output kVA	3.7
Voltage / Current	230V / 16A
Frequency Hz	50-60
Max. weight bearing kg	150
Max. temperature	240°C / 464°F
Max. OD Ø mm	600
Magnetic temperature probe(s)	1
Heating methods:	
- Time	yes
- Temperature	yes
- Temperature or time	no
- Temperature or speed	no
Automatic demagnetization	yes
Weight heater kg (excl yokes)	52
Dimensions mm	788 x 315 x 456

Items

No.	Item	Quantity
4203220-CE	Induction heater BETEX BLF 203 230V incl. 2 yokes- CE	1,00
