

Datasheet

# RS Pro Heavy Duty Ratchet Crimping Tool Frame

RS Stock No: 241-4710

## OPERATING INSTRUCTIONS

Release catch ① and place dies in pockets.  
N.B. DIES are reversible, ensure required size is matched and showing.

### CLOSE HEAD

Place cable lug barrel between dies and rotate RATCHET LEVER ② clockwise until lug is held.

Release MOVABLE HANDLE ④ by turning Handle Lock Cam ③ 180° from Red to Yellow.

Hold tool steady with fixed handle and operate MOVABLE HANDLE ④ until ratchet lever has moved over top centre.

Rotation of RATCHET LEVER ② to bottom position will release DIE.  
Compression is now complete.
