

ABS Plastic Hand Held Enclosures – With Battery Compartment Option

Key Features

- · Electronic instrument enclosures, ideally suited for mounting printed circuit boards.
- · Ergonomically designed for a comfortable fit into the user's hand.
- Lap joint construction provides some protection against dust accumulation and splashing water.
- · Removable front panel for easy modifications.
- Moulded in a light grey general purpose ABS plastic with a light texture (material carries a UL flammability rating of UL94 HB).
- · Assembled with M3 Philips machine screws, threaded into integral brass bushings. Perfect for applications when repetitive assembly and disassembly are required (except for the two smallest sizes which use self-tapping M2.6 screws.)
- · Both top and bottom halves contain P.C. board standoffs moulded in (see photos for details).
- The two largest sizes include four self-adhesive rubber feet for desktop use.
