RS PRO Selector Switch

Heads – Illuminated Short Lever

RS Stock No.: 2383934

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Family Name

Product Description

From the trusted brand RS PRO, a range of high-quality selector switch heads designed to be used in conjunction with a compatible contact block and support base. These selector switch heads have a chrome-plated body, illuminated short levers in various colours, and are available with 2 or 3 switch position options. During application, they are front panel mounted via a 22 mm cut-out and should be connected to a support base secured with screws. Once fully operational the selector switch heads open and close contacts, turn right, left, and centre with a positive feel without rotation of the operators.
