

Medical Face Mask

Technical Specifications

Product description

This Medical Filtering Face Mask helps to decrease the transmission of viruses and germs. The product is Non-woven fabric with ultrasonic welding ear loop, disposable and non-sterile. Comfortable Ear Loop will not cause tension or anaphylactic reaction for long-term wearing. Consists of a fluid resistant outer layer on the top followed by a filter layer high in BFE which has high efficiency for bacterial, Virus and particulate filtration to prevent pathogens from entering your airways.

Material

The filtering media is made of melt-blown polypropylene polymer, placed between non-woven fabric. The melt-blown material acts as the filter that stops microbes from entering or exiting the mask.

Features

- Without Glass Fibres
- Hypoallergenic
- Low Resistance to Breathing
- Nose Bar Adaptable
- High Filtration Capacity
- Perfect Fitting

Conformity

- BFE >98%
- EN14683
- Cytotoxicity: ISO 10993-5:2009(E)
- Sensitization: ISO 10993-10:2002/AMD 1:2010
- Irritation: ISO 10993-10:2002/AMD 1:2010
- A HSA Registered Product
