

# MSLZY59

Dual-flow Medical  
Molecular Sieve Oxygen Concentrator

Medical Grade 8LPM/10LPM  
High flow Oxygen Concentrator  
Oxygen Concentrator

Adopt noise reduction technology,  
low noise operation, no sleep disturbance;

Low temperature and low pressure operation,  
integrated high-efficiency adsorber and imported  
lithium molecular sieve to provide continuous  
oxygen supply;

Dedicated oil-free compressor with  
independently-developed main control board,  
built-in early warning system to monitor  
the running status of the whole machine;

Intelligent large-screen display with voice  
broadcast,remote control, easy operation.

Model	Oxygen	Nebulizer	Remote Control	Oxygen Flow Rate(L/min)	Output pressure (MPA)	Input power (VA)	N.W.(kg)	G.W.(kg)	Dimension(mm)	Packing size (mm)	Noise(dB)
