

## Datasheet

### Prototyping board

RS Stock number 159-6322

#### Budget Eurocard

A range of low cost prototyping boards primarily for hard wiring of general discrete components, as used in analogue and general circuitry, but equally useful where a number of common bus or signal lines are required.

#### Features

- Ideal for low cost prototyping
- DIN 41494 card frame compatible
- Fixing holes provided for DIN 41612 connector
- Microbus backplane compatible

Board dims.	No. of tracks	Hole per track
100 x 220	36	83

*Note: hole grid 2,54 x 2,54mm Hole dia. 1,02mm*
