

Blue Gizmo Salinity Meter, BG-816

FEATURES

- Wide measurement range
- Sodium chloride content (NaCl%) is digitally displayed.
- Refractive index measurement.
- Ambient temperature compensation..
- IP 65 Water resistant
- Automatic measurement function (Closed prism cover).
- Abrasion and corrosion-resistant coating (Sapphire Coating).

SPECIFICATIONS

Measuring Sources	Sodium chloride Temperature (°F/C) Refractive Index
Measuring Range (Water at 4~60°C/ 39.2~140°F)	Sodium chloride: 0.0~28.0% (10~40°C / 50~104°F Automatic Temperature Compensation) RI: 1.3301~1.4098 Temperature: 4.0~60.0°C (39.0~140.0°F)
Accuracy (Water at 23°C/73.4°F)	Sodium chloride ±0.2% RI ±0.0003 Temperature ±1°C/°F
Resolution	Sodium chloride 0.1%, Temperature 0.1°C / °F, Refractive index 0.0001
Dimensions	113x60x38 mm
Weight	120 g without battery
