

Datasheet

RS PRO VGA Male to DVI-A Female Adapter

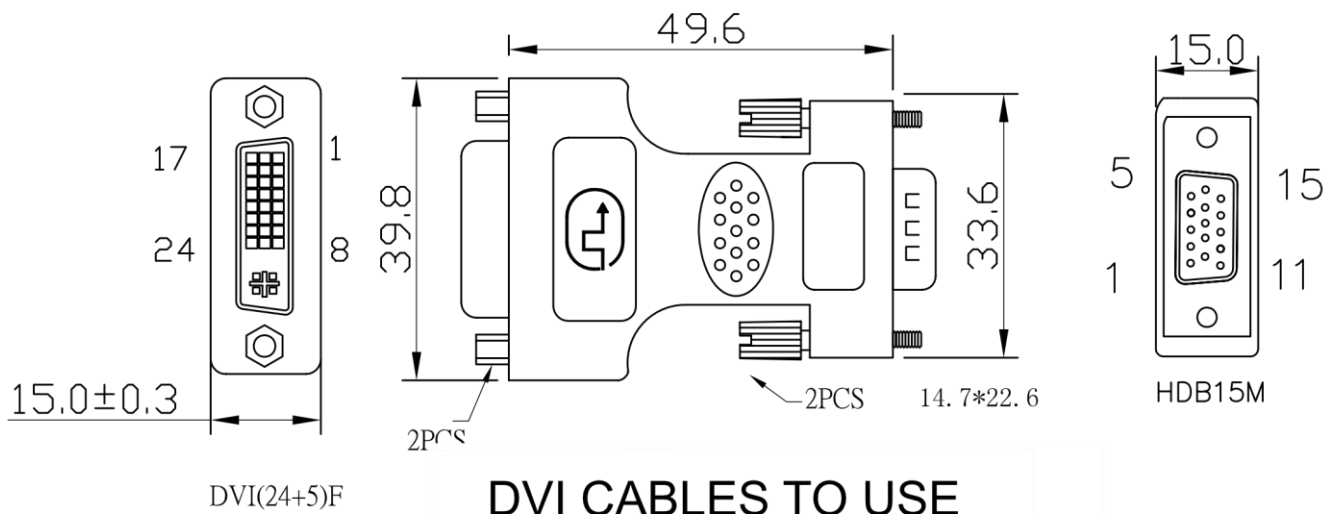

Stock number: 236-9106

EN

The RS Pro VGA to DVI-A adapter uses the analogue signals from the VGA port for use on a DVI-I monitor. As DVI-A has analogue pins you will need to use a DVI-A or DVI-I cable to connect to the DVI-I monitor.

*Please note this does not convert VGA into a digital signal so will not work on DVI-D equipment.

Manufactured with UL material UL File number E174939 UL Style number 1007

DVI CABLES TO USE
