RS Pro Steel Bench Can, 1L

Product Details:

Bench Cans

Bench cans manufactured from Terne Plate, a Lead-Tin Alloy coating applied to steel sheet by hot dipping. One-hand, single motion operation of spring-mounted dasher safely and quickly saturates large wiping cloths and swabs or immerses small parts in cleaning solvent.

- Perforated metal flash arrester dasher protects contents against fire
- Hinged cover serves to reduce escape of vapours & evaporation losses
- Excess liquid quickly drains back into can

Safety Cans

These products are not suitable for carrying spare petrol (or any other liquid) in vehicles. Specific warning labels of high contrast need to be applied if they are to meet requirements under the Chemical Hazard Information Packaging Regulations 1994. Chemical Resistant

Specifications:
