RS PRO 2 Tread Steel Kick Step, Black

RS Stock No.: 621-1745

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Steel kick step stools from RS PRO are the perfect solution for when a height boost is required, allowing you to quickly and efficiently reach areas that are out of reach. The durable steel construction features an anti-slip rubber tread and base, ensuring excellent stability and safety when in use. The steps also feature castor wheels that retract when pressure is applied, allowing the stool to be moved easily without bending or lifting and remain securely locked in place when stepped on. The step/stool is supplied in knocked down form where two sections permanently 'lock' together via a built-in bolt free mechanism. These highly durable kick step stools are GS approved and are available in a variety of colours to suit your working environment. What colours are available?

- Black: [6211745](#)
- Red: [6211751](#)
- Blue: [6693819](#)
- Light Grey: [9097062](#)
