JANUS

Janus is an ergonomic crimping tool with self-adjusting dies for producing a trapezoid crimp profile on wire ferrules 0.14-10.0 mm²/AWG 26-8 (produced to DIN 46228-parts 1 and 4 or UL 486F).

- Rotating dies so that ferrules can be crimp from either side or the front of the tool making it ideal for both bench work and cabinet installation.
- Compact design for easy access to wires in confined spaces
- Ergonomic handles, light weight, relatively low handle force and optimum handle opening for comfortable crimping
- Well balanced so that the tool does not slip out of the hand
- Full cycle crimp mechanism to ensure consistent, reliable crimp
- Ratchet release mechanism to clear mis-crimps and obstructions
- Non-slip rubber grip pad for applying pressure against a surface
- Hole in handle allows attachment of safety strap
- Each tool has a unique serial number for traceability.

Specification

Wire ferrules to DIN 46228-parts 1 and 4 or UL 486F): 0.14-10.0 mm²/AWG 26-8

Trapezoid crimp profile
