Assembly Screw For Use With KM6-II Sub Rack

RS Stock number 444-5643

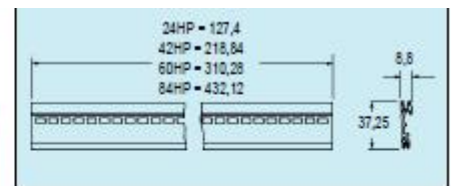

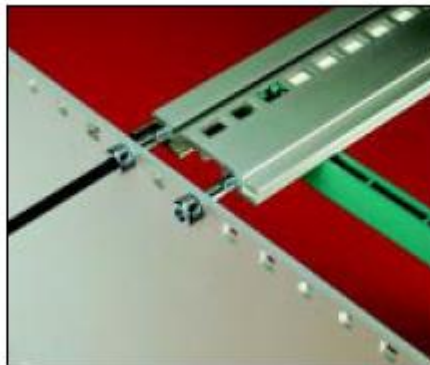

KM6-II REAR TIE BAR

The KM6-II rear tie bars are also strong and versatile. They include two screw fixings for accurate positioning. When used in conjunction with a tapped strip, backplanes and spacers can be attached. Alternatively a DIN 41612 connector mounting frame can be fitted. (Found on page 4.30).

MATERIAL SPECIFICATION
Aluminium alloy BS 1474HE9TF conductive finish

CONTENTS OF KIT: 1 tie bar
