

Air Duster Non-Flammable

Product Description:

Spanjaard Air Duster Non-Flammable provides a high pressure blast of gas for cleaning dust and other contaminants from inaccessible areas of sensitive electronic and electrical equipment including office equipment, circuit boards, printers and keyboards.

- Non-Flammable.
- Penetrates difficult to reach areas.
- Safe on plastics and with most materials used in printed circuit board fabrication.
- Contains no ozone depleting substances.

Typical Properties:

Appearance	Colourless, ethereal odour
Gas Type	R134a
Recommended Operating Temp °C	15-45°C
Density (g/ml)	1.22

Application Instructions:

It is recommended that material compatibility is determined on a noncritical area prior to use

Use product with can in an upright position. Do not invert can or shake can during use.

Spray in short bursts to areas to be cleaned.

The can may become very cold during use. Take necessary precautions (gloves) to prevent cold burns.

For optimum performance ensure that the product is warmed to 20-30°C while in use. Performance will be negatively affected when the product is cold.

Air Duster Non-Flammable

CAUTION:

Pressurised container: May burst if heated. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Dispose of contents/container in accordance with local/regional/national/international regulations.
