RS PRO Electric Door Release, Fail Secure, 12V, 0.27A, 19 mm

RS Stock No.: 741-8243

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Enhance the security of your building with this electric door release. Part of the trusted RS PRO series, this door strike release can be used with access control systems for extra protection.

Using a tried-and-tested Euro-style design, this is a highly reliable product. It is fail-secure and will remain locked should a power failure occur. The adjustable jaw allows you to more tightly secure the latch. With a super-compact 19 mm-deep design and a slimline 28 mm width, this release will comfortably fit most door frames. It can be mortice or surface mounted for effortless and adaptable installation.
