

Datasheet

M8 x 1.25 Female Steel Rod End, 8mm Bore Size, 47mm Long , M8 x 1.25 Thread Size, Metric Thread Standard Female

RS Stock number [198-8967](#)

Structure and Features (female)

Rod Ends have either a female thread in the body or a male thread on the body, and they can be easily assembled onto machines. Used in control and link mechanisms in machine tools, textile machines, packaging machines, etc. The maintenance-free type is especially suitable for loading in one direction and is the best choice for machines in which oil must be avoided such as food processing machines, or machines which cannot be re-lubricated.
