

FEATURES

- Desoldering gun features a built-in vacuum
- Adjustable temperature range displaying in both Celsius (°C) and Fahrenheit (°F)
- Integrated high-power air pump

RS PRO Desoldering Station 140W, 220 → 240V

RS Stock No.: 137-2292

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO, this desoldering station is ideal for desoldering all kinds of components, and includes a vacuum for the easy removal of residual solder. The unit features a microprocessor which provides accurate temperature control, allowing for constant and consistent heat. It also features a ceramic element that provides high performance and fast heating.

General Specifications

Plug type	Type F - Schuko plug, Type G - British 3-pin
Tasks supported	Desoldering
Applications	Engineers, Electricians, Metalworkers, jewellers, Home inventors

Electrical Specifications

Wattage	140W
Input Voltage	220V to 240V
Number Of Outputs	1
Display Type	LCD

Mechanical Specifications

Depth	190mm
Height	172mm
Width	135mm
Nozzle	Φ1.2 mm (on the gun) / Φ1.0 mm / Φ1.5 mm
Weight	1.6kg
Heater	Ceramic Heater
Vacuum Pressure	>600mm Hg

Operation Environment Specifications

Soldering Tip Temperature	480°C
Maximum Operating Temperature	480°C
Minimum Operating Temperature	160°C

Approvals

Compliance/Certifications	CE, RoHS
