

FEATURES

- Temperature range of -55°C to +200°C
- Translucent
- Complies with BfR XV and FDA CFR 21-177.2600
- Meets EU 10/2011 for food contact applications.
- Complies with WRAS (BS6920-1:2000) for drinking water use.
- Meets USP Biological Tests, Classification VI
- Meets ISO 10993-1 Biocompatibility tests.
- Easily Sterilised
- No imparted taste or odour.
- Sustainability – Silicone hoses are fully recyclable.

RS PRO Silicone Rubber Tubing

RS Stock No.: 2354807

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS Pro Silicone Rubber tubing is a very flexible Shore A 60 tube that exhibits a unique combination of characteristics and properties. The tube has a very wide temperature range from -55°C to +200°C and meets European Pharmacopoeia regulations, class VI biological tests and food contacts regulations such as FDA and WRAS.

Applications:

- Food processing equipment
- Drinking water supply and dispensing
- Chemical transfer
- Laboratories
- Medical devices
- Peristaltic pumps
- Electrically insulating tube

General Specifications

Material	Silicone Rubber
Colour	Translucent
Reinforced	No

Mechanical Specifications

Inner Diameter	6mm
Outer Diameter	10mm
Length	25m
Temperature Range	-55°C to +200°C
Hardness	60 Shore A
Sterilisation Methods	Autoclave – OK Gamma Radiation – OK Ethylene Oxide - OK

Additional Information

Custom Tariff Number	39173300
