

Safe-D F-Clip 40 - Flex, Fit, Fold & Lock

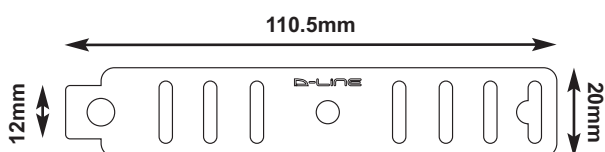

Safe-D F-Clip 40 is a fire-rated flexible cable clip that is supplied in flat form, and can be quickly folded to make a variety of shapes to most effectively secure cable installations.

Installers can pass the locking tab through a choice of opposing notches, according to the volume of cables to be secured - and to make the required shape.

Safe-D F-Clip notches can be flexed (for example to open for adding or removing cables) up to four times, after which replacement F-Clips should be used.

The locking tab gives greatest security, and can be return-folded if preferred.

- Supplied flat...
 - Space efficient and pocket friendly
 - Easier handling - to save installation time
 - Easy folding to consider space and cable volume
 - Perfect for shot fired fixings
- Fully safety tested, for compliance with BS7671 and BS5839 part 1
- >1200°C melting point
- Locking feature to hold cables most securely... simply push the tab through the preferred notch
- Locking tabs can be return-folded for a more secure installation
- 3x fixing holes for versatility, ideal for use with D-Fixings
- Thumb friendly, rounded corners, 20mm wide, and pliable for easy installation
- Fit direct to surface, or in PVC trunkings
- Easy to later add or remove cable(s) - Can be opened/closed up to 4x
