RS PRO RS1013 LAN Test Equipment of Tone Generation

RS Stock No.: 136-5673

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO LAN cable tester set is designed to quickly identify and trace cables or wires within a network and check the operation of phone lines. Network cable testers are a must-have for connection trouble shooting or installing new cable connections, they check the signal quality and identify cables that need attention. Featuring a 220 V high-voltage protection function. Tests include wire trace, continuity test, clear/busy/ringing line test and tip/ring identification, with proper use and care, this meter provides many years of reliable service.
