### Instruction for use:

Designed for general works, delicate and light duty equipment handling.

### Limits for use:

Do not use outside of the above mentioned domains. This glove is free from allergenic substances by ingredients that are neutral to the skin.

### Instructions for storage:

Store in its original packaging in a cool, dry place protected from frost and light. Avoid direct sunlight, heat, flame and source of Ozone.

### Instructions for cleaning/maintenance:

No special maintenance or cleaning is needed or recommended for this type of glove.

### Performances:

Meets the requirements of Europe, particularly in the field of ergonomics, safety, comfort, ventilation and flexibility and the standards EN420:2003, EN388:2003 (2,1,2,2) and EN388:2016 (2,1,2,2,X). X meant for not tested in TDM Cut Resistance.

### Features

- The premium goatskin genuine leather provides second skin for hand protection.
- Enhances comfort and prevents dryness and skin sensitivity.
- Offers abrasion resistance, durability and dexterity.
- Minimum heat resistant and small spark extinguish for gas welding.

### Dimensions (mm), length tolerance (+/- 2.5mm)

Size	9/M	10/L	11/XL	12/2XL	13/3XL	14/4XL
1	260	270	280	290	300	310
2	100	110	120	130	140	150
3	195	200	205	210	215	220
A	Thickness about 1mm +/- 0.2mm					

### Cleaning Instructions

- To clean leather gloves, dip a clean, soft cloth or paper towel in water (or slightly warm water not exceeding 40°C), squeeze out the excess so the cloth or paper towel is damp, but not dripping.
- A mild non-ionic laundry soap or detergent should be used.
- Put a few drops of mild soap or detergent on the cloth or paper towel and rub it in to create a lather. Gently rub the surface of the glove with the soapy cloth or paper towel, focusing on dirty areas in particular.
- Use hand cleaning and hang dry only, do not use machine wash, do not use tumble dry, do not iron.
- After cleaning the gloves may not have the same performance level as original. AccSafe® cannot accept any liability if the gloves do not have the same levels of performance prior to cleaning, even if it was carried out according to the instructions indicated.

### Applications

- Handling of rough parts and components
- Maintenance
- Logistics & warehousing equipment handling
- General mechanical works
- Gas welding Argon etc.

## AccSafe leather glove

Goatskin leather natural colour (white) - 734003

### Care Instructions

- Used gloves maybe contaminated with infectious or hazardous substances, dispose of according to the Local Authority/Municipality Regulations, landfill or incinerate under controlled conditions. For more information on glove selection, usage and performances and for a copy of the COC please contact us as below.

### Warranty/Limitation of damages

- AccSafe® warrants that this product shall be in accordance with our standard specifications as of the date of delivery to authorized distributors/users.
- Except to the extent prohibited by law, this warranty is in lieu of all warranties, including any warranty of fitness for a particular purpose; AccSafe® liability shall be limited to the purchase price of the product at issue. Buyers and users of this product are deemed to have accepted the terms of this limitation of warranty, which may not be varied by any verbal or written agreement.

### Use

- **The glove should only be used in accordance with the pictograms printed on the glove.** Please ensure that if you are working with chemicals that the gloves have the chemical pictogram i.e. EN374 printed on the glove and are suitable for the chemical that you are exposed to. **Further information about chemical permeation levels please contact us.** *This information does not reflect the actual duration of protection in the workplace and the differentiation between mixtures and pure chemicals. The chemical resistance has been assessed under laboratory conditions from samples taken from the palm only and relates only to the chemical tested. It can be different if it be used in a mixture.*
- Do not use these gloves to protect against serrated edges or blades or naked flames. If gloves are required for heat applications be sure that the glove conform to EN407 and that is tested in accordance with your requirements. Do not use these gloves if there is a risk of entanglement with moving machinery or moving machinery parts.
- Before use, inspect the gloves for any defects or imperfections and avoid wearing damaged, heavily soiled, worn or dirty (also internally) glove of any substance, this could irritate and/or infect the skin and cause dermatitis. In this event, seek medical advice from the company doctor or consult a dermatologist. After use, clean the gloves thoroughly with a dry cloth to remove any contaminants. If the gloves are to be re-worn store in such a way that the inside lining of the support can dry out easily.
- Use the gloves not exceed 3 years. The actual usage may depending on individual and work load.

### Constituents / Allergies

- Some gloves may contain ingredients which are known to be a possible cause of allergies in sensitive persons who may develop irritant and/or allergic contact reactions. If an allergic reaction should occur seek medical advice immediately.
