

**Datasheet**

**ENGLISH**

# RS PRO F40 Polyester Tape

Stock No: **223-1095**

## Technical Specifications:

|  |  |
|--|--|
| Release Liner: Red MOPP Silicone film                | Initial Tack: <5cm                     |
| Carrier: Transparent Polyester Film PET              | Holding Power (room temperature): >24h |
| Adhesive: Modified Transparent Solvent Based Acrylic | Heat resistance (80°C):>24h            |
| Total Thickness(without liner):200mic                |  |
| 180° Peel Adhesion: 2.5N/cm                          |  |

## Features & Benefits:

- **Excellent Bond Strength, even to low surface energy surfaces.**
- **High Temperature and UV resistance**
- **Immediate usability.**
- **suitable for demanding and high stress applications**

## APPLICATIONS:

- Mounting of ABS plastic parts in the automotive industry.
- Mounting of rubber/EPDM profiles
- Mounting of decorative profiles and mouldings in the furniture industry
- Mounting of battery packs, lenses and touch-screens in electronic devices
