RS PRO STAINLESS STEEL BUTTERFLY VALVE LOCKOUT

RS Stock No.: 221-5279

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This lockout is simple in use and effective in order to prevent unauthorized operation of Stainless Steel Butterfly Valves. These lockouts are majorly used in the Pharma plants, breweries, food product industries, Soft drinks making plants, etc. Where ever these SS pipelines are being used.

- Specially drafter lockout device for the Stainless Steel Butterfly Valves for the Food & Brewery Industry.
- This 3 piece lockout device can jam the valve in OPEN, CLOSE or Variable positions.
- To Lockout, 1st place the Circular Spacer on the handle rod, then place the Cylindrical Part on handle rod and lastly place the end cap from the other side.
- Once installed, the two parts jam the valve lever completely.
- Multiple padlocks can be installed on the holes provided.
- Resistant to cracking and abrasion.
- Highly resistant to solvent and other chemical products.
