

FEATURES

- Non-Rechargeable
- Wide operating temperature range
- The self-discharge on this range of coin cells is low
- High load applications
- They have excellent reliability and a high capacity

RS PRO Alkaline 4.5V Battery

RS Stock No.: 790-4697

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

3LR12 alkaline primary battery from RS Pro. This non-standard size battery is designed for reliability in specialist applications such as lighting. This heavy-duty battery has a high capacity and with the 4.5 nominal voltage, the battery is designed to last for much longer periods of time. You can be assured that this battery will give you the power you need even in the darkest of situations. This RS Pro alkaline battery is made with durable materials and the ability for a long shelf life completed with positive and negative spring terminal tags.
